

STAINLESS BOTTLE STOPPERS

This list is accurate to the best of our knowledge. Please remember that manufacturers have different size spindles for different locations around the world.

This list was created to help fellow and new woodworkers with finding compatible attachments for their wood lathes. If you do not see your wood lathe listed and know the; spindle thread size, spindle taper, and tail stock taper, please let us know and we will gladly add it to this list.

Morse Taper Size is for Spindle and Tailstock unless otherwise specified with S= Spindle & T= Tailstock

Manufacturer	Model	Spindle Thread	Morse Taper #
Apprentice	812 VS	1" x 8 TPI	MT#1
Arundel	E5		MT#1

Note #1: Some early models may have a MT#2. Although this is very rare.

Note #2: Lathes can come in shown spindle thread size, M30 x 3.5, or M33 x 3.5.

Note #3: Optional 3/4"-16 Spindle threads were offered.

Note #4: Lathes can come in shown spindle thread size or M33 x 3.5.
